Individual Score
Team Score

Team Effectiveness Evaluation

Step 1: Calculate your team's average individual score (from column #4 totals)

Step 2: Enter your team's score earned working together (from column #5 total)

Step 3: Calculate your "synergy" score (Cell "A" minus Cell "B")

Step 4: Calculate your percent change (Cell "C" divided by Cell "A" x 100)

Step 5: Enter the lowest individual score on your team

Step 6: Enter the number of individual scores lower than team score

A

B

C

+ indicates synergy

% D

E

(best "solo" score)

F

(fewer is better)
